

SUBJECTS NEEDED

**We are seeking women in the
first trimester of their first pregnancy
for a research study examining the effects of
pregnancy on a woman's feet.**

This requires three 2-hour outpatient visits to the Gait Study Center during the first trimester, the third trimester, and six months after delivery.

These visits will involve a medical history and physical examination, as well as measurements of your feet while standing and walking.

Compensation for time and travel will be provided.
